CF Series Ambient Vaporizers

Ambient Vaporizer flow rates and specifications

MODEL	FLOW RATE Nm3/h*	INLET	OUTLET	APPROX. WEIGHT kg	DIMENSIONS mm
		to ANSI B16.5			
CF 50	50	25 NB 300#	25 NB 300#	62	592 x 592 x 3230
CF 75	75	25 NB 300#	25 NB 300#	93	592 x 592 x 4400
CF 100	100	25 NB 300#	25 NB 300#	135	592 x 842 x 3230
CF 150	150	25 NB 300#	25 NB 300#	180	592 x 842 x 4400
CF 225	225	25 NB 300#	25 NB 300#	275	1092 x 842 x 4400
CF 300	300	25 NB 300#	25 NB 300#	360	1092 x 842 x 5600
CF 400	400	25 NB 300#	25 NB 300#	468	1092 x 1092 x 5600
CF 500	500	40 NB 300#	40 NB 300#	590	1092 x 1636 x 4800
CF 750	750	40 NB 300#	40 NB 300#	888	1636 x 1636 x 4800
CF 1000	1000	40 NB 300#	50 NB 300#	1180	1636 x 1636 x 6200
CF 1500	1500	50 NB 300#	50 NB 300#	1720	2092 x 2092 x 5300
CF 2000	2000	50 NB 300#	80 NB 300#	2308	2092 x 2092 x 6800
CF 2500	2500	50 NB 300#	80 NB 300#	2802	2092 x 2092 x 8300
CF 3000	3000	50 NB 300#	80 NB 300#	3360	2592 x 2092 x 8000
CF 4000	4000	50 NB 300#	80 NB 300#	4400	2592 x 2092 x 10425
CF 5000	5000	100 NB 300#	100 NB 300#	5550	2592 x 2092 x 12800

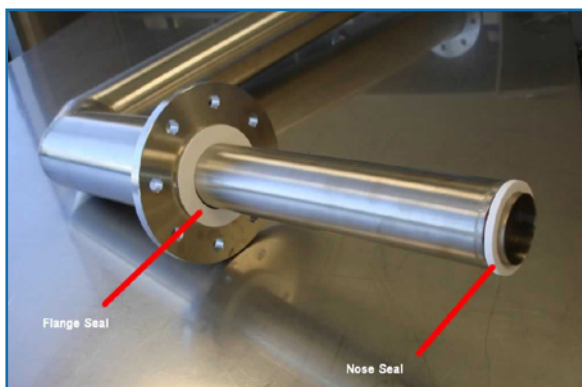

* Based on the industry norm of : LIN, ambient temperature of 21°C, 70% RH, 8 hour duty cycle and a working pressure of 10 barg. MAWP to 40 barg. Factors outside of these parameters may influence the actual result. For further information on sizing and selection, please contact our technical team for assistance.

Our Products Include:

Vaporizers

- Ambient
- Fan forced
- Steam heated
- Electrically heated
- Water heated
- Stainless / Monel lined
- High pressure cylinder filling
- Special purpose vaporizers

Vacuum jacketed piping

- Gas vents
- Gas phase separators
- Vent heaters
- Auto-fill systems
- ½" to 6" standard designs with bayonet joints
- Welded connections available in all sizes
- Flexible vacuum jacketed hoses

Cryogenic piping skids and panels

- Gas mixing
- Flow measurement
- Pressure regulation
- Cylinder filling systems
- Cryogenic pump skids
- Turnkey systems

Call us today for more details on our great range of products and services !!
